**SPECIAL ABBREVIATION**

**MB** = make bobble: (K1, p1, k1, p1, k1) in next stitch, turn work and p5sts, turn work and pass the 2<sup>nd</sup>, 3<sup>rd</sup>, 4<sup>th</sup> and 5<sup>th</sup> stitch (one at a time) over 1<sup>st</sup> stitch, then knit into the back of first stitch

**STITCH EXPLANATIONS**

The yarn forward (yfd), yarn over needle(yon) and yarn around needle (yrn) all serve the same purpose – to make a stitch to correspond with the stitch(es) that is(are) lost when working a decrease. They are just worked slightly differently dependent on where they are placed in the pattern and what stitch follows:

**Yarn forward (yfd)** = is worked before or after any knit stitches by simply bringing the working yarn to the front of the work.

**Yarn over needle (yon)** = is worked after a purl stitch before the next knit stitch. As the working yarn is already in front of the work from working a purl stitch, take yarn to back of work, then wrap the needle again, thus having a loop over the needle and the working yarn again at back of work.

\*Note\*: On following rows you will need to work into the back loop of the yon to make the eyelet hole.

**Yarn around needle (yrn)** = is worked before a purl stitch. If the yarn is at the back of the work from working a knit stitch, bring yarn to front of work, then wrap the needle again, thus having a loop around the needle and the working yarn again in front of work. If the yarn is at the front from working a purl stitch, wrap the needle again, thus having a loop around the needle and the working yarn again in front of work.
